## About me

Finance and analytics professional with International MBA and Finance Bachelor's (Cum Laude). At Swiss International Airlines AG, I design financial accounting processes and support global shared service operations. Experienced in managing reporting projects, documenting processes, and delivering market analyses that drive business decisions. Known for optimizing operations through data-driven insights and cross-functional collaboration. Excel at transforming complex data into actionable intelligence while driving OKR initiatives with strong analytical capabilities and attention to detail.

## Work Experience

### Financial Accounting Excellence – Services Intern

Swiss International Airlines AG | Feb 2025 – present

- Assisted in designing and implementing new financial accounting processes and systems to enhance operational efficiency.
- Supported the analysis and steering of accounts payable & receivable processes managed by shared service centers in Krakow, Manila, and Mexico.
- Documented and illustrated financial processes to improve transparency and knowledge sharing.
- Co-managed financial accounting initiatives and projects, contributing from planning to implementation.
- Assisted in driving OKR (Objectives & Key Results) initiatives to enhance financial management methodologies.
- Collaborated with cross-functional teams to develop best-in-class solutions for global financial accounting operations.

### Customer Operations & Payroll Journal Entry Controller

Papaya Global | Dec 2021 – Jul 2024

- Spearheaded financial operations for enterprise clients, managing complex journal entry processes and ensuring 100% compliance with international accounting standards
- Designed and implemented customized reporting solutions for multinational corporations, resulting in reduction in processing time
- Led cross-functional initiatives to streamline monthly financial reporting workflows, improving accuracy and reducing delivery time
- Developed automated solutions for data validation and reconciliation, handling over \$50M in monthly payroll transactions
- Served as primary point of contact for key enterprise accounts, maintaining a high client satisfaction rate

## Financial Analyst Junior

Q.B.O Services Ltd | Apr 2021 – Dec 2021

- Produced comprehensive financial reports using Excel, Power BI, and MySQL, providing critical insights for C-level decision-making
- Conducted in-depth analysis of company exposures and P&L statements, identifying key risk areas and opportunities
- Managed portfolio of expiration assets contracts, including evaluation, recalculation, and contract renewal processes
- Performed market research and analysis to identify new investment opportunities, contributing to 15% portfolio growth
- Collaborated in feature testing and implementation of new financial products

## Financial Analyst Intern

I Know First | Nov 2020 – Apr 2021

- Generated fundamental and technical analysis reports for US, UK, and Middle East markets, covering over 100 companies
- Developed investment thesis presentations for high-potential stocks, contributing to client portfolio performance
- Enhanced marketing strategy through data-driven content creation and traffic analysis, increasing website engagement by 25%
- Created detailed market analysis reports for institutional clients, focusing on emerging market opportunities

## Marketing and PR Department Intern

BPS-Sberbank | Jun 2019 – Apr 2020

- Conducted comprehensive three-year financial performance analysis, identifying key profitability drivers and growth opportunities
- Developed strategic recommendations for new financial products, resulting in 20% increase in deposit accounts
- Utilized design thinking and customer journey mapping to optimize product development process
- Performed SWOT analysis and profitability studies for card products, contributing to product strategy decisions
